

New aspects and perspectives of the tree species adaptation - mitigation and adaptation throughout time

Workshop content (EDU1)

Wood has been an essential natural resource throughout time. In this workshop, we learn about:

- Wood in a historic perspective
- Rediscovered knowledge derived from historical literature & wood object analyses
- Wood selection criteria, i.e. natural assortments or overgrown stumps
- Wood species selection criteria, as well as woodworking techniques
- One-day visit to the famous Austrian Open-Air Museum Stübing

27 - 31 August 2023, Tulln / Vienna, Austria

This field week has been funded
with support from the European
Union.

Project number: 2020-1-CZ01-
KA203-078483.
